ANDREA MICHELLE RODRIGUEZ

Where strategy meets *measurable* impact.

I combine creative thinking, performance analytics, and hands-on campaign management to help brands turn advertising investments into meaningful business results.

The work, *measured.*

I'm a digital marketing lead strategist at a healthcare-focused agency, managing Google, Meta, and LinkedIn campaigns for healthcare brands. Each number below is labeled with its scope.

−63%

cost per lead for a dental practice, same budget

Case 01 · Q2 vs. Q3 2026

+168%

more tracked leads, with 2% less spend

Case 01 · Q2 vs. Q3 2026

−41%

cost per lead in a new account's first four months

Case 02 · Jun–Jul vs. Aug–Sep 2026

35+

dental practices, plus hyperbaric, weight-loss, and aesthetics clients

Accounts I manage paid media for

~$100K

combined monthly ad spend overseen

Google · Microsoft · Meta · LinkedIn · ad spend, not revenue

4

healthcare verticals: dentistry, hyperbaric medicine, medical weight loss, facial aesthetics

Google · Meta · LinkedIn

CURRENTLY

Digital Marketing Lead Strategist, Innovate Media Marketing · since Jan 2026

EDUCATION

B.B.A., Marketing & Management (double major), University of Houston · expected May 2027

"Leads" are conversions tracked in Google Ads (calls, form submits), not verified booked patients. Client names withheld.

GENERAL & FAMILY DENTAL PRACTICE · GOOGLE ADS SEARCH · Q2 VS. Q3 2026

Same budget. *Two and a half times* the leads.

Cost per lead	Tracked leads	Conversion rate	Ad spend
−63%	+168%	13.2%	−2%
Q2 → Q3	Q2 → Q3	from 5.9%	held flat

THE CHALLENGE

A steady monthly budget, a rising cost per lead, and lots of impressions that didn't turn into clicks. The budget wasn't going to grow, so any gains had to come from spending it better.

THE STRATEGY

Fix what bidding optimizes toward, tighten targeting where search terms showed waste, and make the ads more useful at the moment someone decides to call.

THE EXECUTION

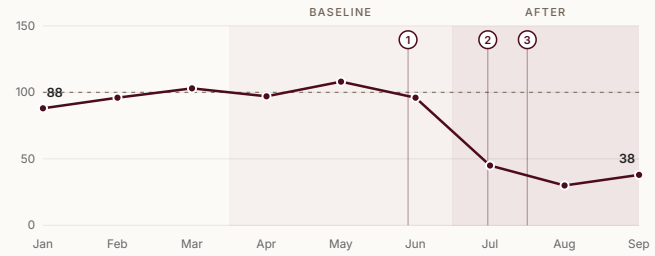

- Took a page-view action out of primary conversions; lead-form submit made primary
- Restructured keywords in two ad groups; paused weaker phrase-match terms
- Expanded shared negative keyword lists from search term reviews
- New callouts, sitelinks, and assets; RSA refresh
- Rebalanced budget between campaigns through July

THE TAKEAWAY

More leads from the same money, by reading search terms closely and checking the measurement before taking credit.

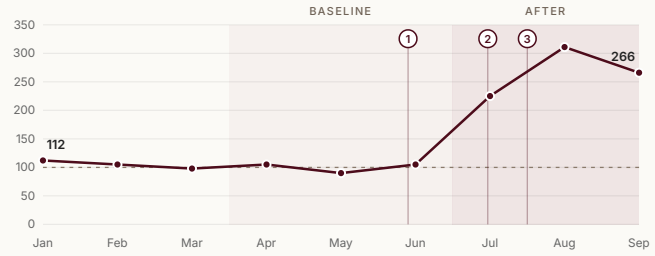

Cost per lead by month

Indexed, Q2 2026 avg = 100 · lower is better

Tracked leads by month

Indexed, Q2 2026 avg = 100

① May 28 conversion-goal cleanup · ② Jun 30–Jul 1 keyword restructure + assets · ③ July budget rebalancing. Source: Google Ads, Jan–Sep 2026. CTR rose from 2.75% to 5.18% and CPC fell 18%. The conversion setup didn't change between Q2 and Q3. Leads are calls from ads (each call counts), not verified patients. This was agency team work.

Values indexed to protect client confidentiality.

Teaching the algorithm *what a lead is.*

Smart Bidding learns from whatever you tell it counts as success. Some accounts were reporting more conversions than clicks, so we set one standard for what counts as a lead and applied it account by account.

CONVERSION STANDARDIZATION · 4+ DENTAL PRACTICES · DOCUMENTED IN CHANGE HISTORY

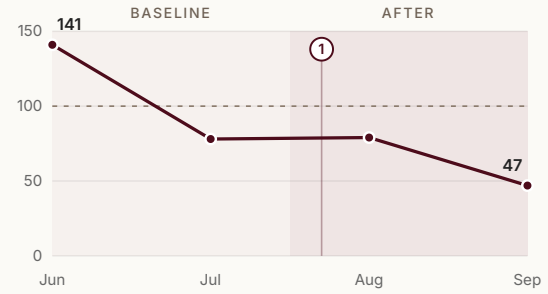

May 28	PRACTICE A	Page-view conversion out of primary; lead-form submit made primary
Jun 8	PRACTICE C	Minimum call length raised from 15 to 30 seconds
Jun 8	PRACTICE D	Directions out of primary; 45-second call threshold
Jun 18	PRACTICE C	Call threshold raised from 30 to 45 seconds
Jul 9–13	PRACTICE C	Directions out of primary; thank-you conversion revalued
Jul 22	PRACTICES B & D	Duplicate call actions removed or moved to secondary; 60-second website-call threshold; menu views removed

> This is a **measurement** improvement, not a performance gain. Conversion counts from before and after a tracking change aren't comparable, so there's no before/after chart here.

CASE 02 · NEW GENERAL & COSMETIC DENTAL ACCOUNT · LAUNCHED MAY 2026

Cost per lead by month

Indexed, Jun–Jul avg = 100 · ① Jul 22 tracking cleanup

	JUN–JUL (BEFORE)	AUG–SEP (AFTER)
Cost per lead	100	59
Tracked leads	100	169
Conv. rate	2.9%	5.0%
Ad spend	100	100

> Jun–Jul vs. Aug–Sep 2026: CPL −41%, leads +69%, spend flat. Steady budget plus an early tracking cleanup. The cleanup removed actions, so the gain is likely understated. Some of it is normal new-account ramp-up.

Practice letters are anonymous labels. Values indexed to protect client confidentiality.

Strategy beyond *the screen.*

Before paid media, I worked on integrated, geographically targeted campaigns for a homebuilder in specific Texas markets. That's where I learned that a campaign starts with a market, not a platform.

01 · MARKET

Regional campaign planning for specific Texas markets

Local audience research | Geographic targeting

02 · MESSAGE

Graphic design and promotional materials

Signage | Print collateral

03 · MEDIA

Out-of-home and broadcast

Billboards | Radio

04 · MEASURE

Website behavior in Google Analytics

The Preserve of Texas

SWE Homes

SWE Lending

Promotional tote designs: one layout system across three brands, with bilingual cues for a Spanish-speaking audience.

I bring the same thinking to paid media: choose the audience and the message first, then the channel.

The *toolkit.*

I

Paid media

- Google Ads
- Meta Ads
- LinkedIn Ads
- Microsoft Ads (limited)

II

Measurement

- GA4
- Looker Studio
- Conversion tracking
- Campaign analysis
- A/B testing

III

Strategy

- Lead generation
- Keyword research
- Audience targeting
- Budget allocation
- Reporting & client communication

IV

Workflow

- GoHighLevel CRM
- Pulse · Asana
- Adobe CC · Canva
- Excel

I'm Michelle, a Houston-based marketer who likes knowing *why* a campaign works, not just whether it did. Most of my days go to search terms, conversion tracking, ad copy, budget pacing, and client calls. I'm bilingual in English and Spanish, and Google Ads certified in Search, Measurement, Creative, and Display.

Let's make something *work.*
